

HAWORTH

European Colour Collection

Fabrics & Finishes

July 2021

European Colour Collection Overview

The following overview explains how information is organized within this overview.

- 1 **Front Cover**
Includes title and date of most recent update
- 2 **Information Page**
- 3 **Table of Contents/Overview**
Table of contents with page numbers
- 4 **Section Pages**
Provides information on the fabric/finishes category
- 5 **Collection Pages**
Each page contains the following:
 - Provider/Manufacturer logo
 - Icon that links to Cleaning & Disinfecting pages
 - Icon that links back to Overview pages
 - Collection Name
 - Price Group Information
 - Collection Number
 - Material information
 - Colour Swatches with appropriate colour codes
 - Material Classifications
- 6 **Additional Information** – Product Care Instructions, Disinfecting Information+List

Our Partners

The Haworth Colour Collection is designed with the philosophy that our fabrics and finishes are offered broadly across our various product lines (unless constrained by manufacturing processes) allowing designers to blend products simply and easily.

The broad spectrum of surfaces we offer at Haworth ranges from real wood and veneer to melamine and glass, giving you every opportunity to select the right solution to suit your specific requirements.

At Haworth we ensure our fabrics satisfy the highest quality standards so they look and feel good for years on end. Needless to say, we offer a vast variety of materials and colours for all kinds of furniture.

We create partnerships with companies that conform to our values and ensure added value for our customers.

Product Care Instructions

The following instructions are recommendations only. While these instructions are usually effective, each circumstance is unique, and we cannot guarantee the treatments will be completely successful.

Fabric Care

Most fabrics can be easily maintained by simply vacuum cleaning or brushing and cleaning with dry foam. Leather finishes should be wiped down with a slightly damp cloth or a recommended leather cleaner.

Wood

Dust your wood furniture regularly to avoid build-up of dirt and grime that can dull the finish. Clean with a clean damp cloth following the grain of the wood. Wipe clean with a soft, dry cloth. Do not use excess amounts of water and do not allow water to stand on the wood surface.

Other Material

Leathers: Wipe down with barely damp cloth or use a recommended leather cleaner.
Glass/Spray with a glass spray and wipe with a soft, dry cloth.
Metal: Wipe with a mild detergent and warm water. For metal storage and chair bases, avoid getting the moving parts dirty.

For more details regarding Product Care, please visit [haworth.com/na](#)

Cleaning Guide

Overview

General Instructions

The following instructions are recommendations only. While these instructions are usually effective, each circumstance is unique, and we cannot guarantee the treatments will be completely successful.

Fabric Care

General maintenance: Wipe with a mild detergent and warm water. **Stain removal:** Wipe with a non-abrasive cleaner, rinse with warm water and dry with a soft cloth.

Most fabrics can be easily maintained by simply vacuum cleaning or brushing and cleaning with dry foam. Leather finishes should be wiped down with a slightly damp cloth or a recommended leather cleaner.

Wood

Dust your wood furniture regularly to avoid build-up of dirt and grime that can dull the finish. Dust with a clean damp cloth following the grain of the wood. Wipe clean with a soft, dry cloth. Do not use excess amounts of water and do not allow water to stand on the wood surface.

Other Material

Leathers: Wipe down with barely damp cloth or use a recommended leather cleaner.

Glass: Spray with a glass spray and wipe with a soft dry cloth.

Metal: Wipe with a mild detergent and warm water. For metal storage and chair bases, avoid getting the moving parts damp.

Cleaning & Disinfecting

Cleaning is used to remove dirt from surfaces for general hygiene and maintenance.

Cleaning **tools** include soap, water, and a damp cloth or other non-disinfectant cleaners.

Disinfecting removes up to 100% of bacteria, fungi and viruses from surfaces. Used primarily for hygiene reasons in homes, offices and medical settings

Disinfecting **tools** include various disinfectant solutions depending on the material of the surface being cleaned.

List

The following slide will show the recommended cleaning and disinfection solutions per each Haworth fabric and material category.

Cleaning Guide

Overview

Disinfection guidelines

These recommendations are for the purposes of **disinfection** only. For general **care and maintenance** instruction related to the upkeep of a product's aesthetics over time, please refer to the Care and Maintenance guide.

Disinfecting Wipes

(containing Quaternary compound disinfectant)

Look for products whose active ingredient is a Quaternary Ammonium Compound or "Quat" disinfectant

Make sure the wipes **do not include** bleach

Alcohol disinfectants

70% medical alcohol (70% is minimum recommended by CDC)

Disinfecting spray without bleach

Cleaners containing Hydrogen peroxide

NOTE: Improper cleaning and maintenance of any surface or material may result in the voiding of that product's warranty. A small inconspicuous area should always be tested before large scale cleaning.
